Crystal Solution
Birtamode , Jhapa

Dear Sir/Mam,

I am writing to express my interest in applying for a Web Developer internship at   Crystal Solution. I am currently pursuing a Bachelor's degree in Computer Science and Information Technology (BSc.CSIT) at Himalaya Darshan College. As a student passionate about web development and UI/UX design, I am eager to apply my skills in a professional setting and learn from experienced developers at your esteemed company.

Through my academic coursework and personal projects, I have gained hands-on experience in both front-end and back-end web development. I have worked with technologies such as Node.js, Express, React.js, and PostgreSQL. For instance, I developed a Real Estate Web App, where I implemented advanced property search and filtering features, user authentication, and a dynamic UI/UX. I am also currently building an e-commerce platform that integrates secure payment methods and features like product reviews and order management.

Additionally, I have earned certifications in React.js and the MERN stack from SoftMind InfoTech and Sipalaya InfoTech, which have further strengthened my technical skills. I am proficient in HTML, CSS, JavaScript, React, Node.js, and Express.js, and I am comfortable using version control systems like Git and GitHub.

As I look to expand my skills and experience, I am particularly drawn to   Crystal Solution because of its commitment to innovation in web and mobile development, as well as its client-centric approach. I am excited about the opportunity to contribute to your team, learn from seasoned professionals, and apply my knowledge in real-world projects.

Thank you for considering my application. I would love the opportunity to discuss how I can contribute to   Crystal Solution as an intern. Please feel free to contact me at 9815959527 or via email at kanchanmainali1@gmail.com.

Sincerely,
**Kanchan Mainali**
